Summary

Front-End Developer with 1.5+ years of professional experience building web applications with React, Next.js, and TypeScript. Experienced in developing CRM, CMS, B2B platforms, and responsive dashboards, with a focus on clean UI, performance, and maintainable code.

Skills

Core

React, Next.js, TypeScript, JavaScript

Styling

Tailwind CSS, Sass/SCSS, HTML/CSS

State & Data

TanStack Query, Zustand, Redux Toolkit

UI

shadcn/ui, Chakra UI, Mantine

Forms & Tools

React Hook Form, Zod, React Router, Git & GitHub

Other

Framer Motion, react-i18next, PWA

Experience

Abarrayan — Iran , Tehran

Front End Developer — Jul 2024 - Jan 2026

- Developed production CRM, CMS, and enterprise dashboards using **Next.js 15** (App Router) **, React 19, TypeScript**, and Vite, with **SSG/ISR** for performant, **SEO-friendly** pages.
- Built custom **file-management systems**, rich-text editors, and complex dashboard workflows.
- Developed **PWA-based B2B platforms** with vendor/customer portals, inquiry workflows, and order management.
- Implemented **Redux Toolkit, Zustand, TanStack Query, React Hook Form, and Zod**, with responsive/multilingual UI and performance optimization using **lazy loading**.

Freelance

Front-End Developer

Logistics Data Dashboard

- Developed a frontend dashboard with authentication, searchable data tables, password management

Restaurant Website — *React / GSAP*

- Developed an interactive restaurant website using React and GSAP, focusing on scroll-based animations and dynamic UI interactions.

Projects

HSS

A water management platform focused on water loss detection, pipe mapping, and meter testing.

HSS [Live]

FAP-CASE

A protective case manufacturer offering durable, impact-resistant cases with custom foam interiors

FAP-CASE [Live Demo]

Chemie market - PWA

Developed the frontend of a B2B platform for product discovery and business transactions, featuring industry and category-based navigation, advanced product search and filtering, and dedicated buyer and seller portals. Built request and quotation workflows, allowing buyers to submit inquiries and sellers to respond with offers, along with dashboards and data tables for managing requests, products, and related activities.

CMS & File Management Panel

Developed a content management panel with a rich-text editor for creating web pages with text and images, rendering Tailwind CSS-based HTML content on the website. Built a full-featured file manager supporting folders, subfolders, file uploads, renaming, moving, deletion, and restore operations.

Insurance Analytics Dashboard

Developed a private three-page insurance dashboard integrating AI-based prediction results and interactive data visualizations to present analytical insights through charts and reports.

Education

Islamic Azad University — Bachelor's

Computer Engineering — Oct 2023 - present

Languages

Persian (Native) **Turkish (Native)** **English (B1)**
